Introduction

HP offers a variety of optional products (each sold separately) designed to complement our monitors and clients to enhance the overall computing experience.

The HP Quick Release Bracket 2 is designed for use with 100 mm VESA-compatible flat panel monitors and clients.

HP Quick Release 2 is an easy to use, 100 mm VESA-compliant, monitor and client mounting solution that allows you to quickly and securely attach to a variety of stands, brackets, arms or wall mounts. The failsafe "Sure-Lock" mechanism snaps the monitor or client securely in place, and can be further secured with a theft deterrent security screw.

Uniquely flexible product configurations

HP Quick Release 2 enables uniquely flexible product configuration alternatives in a variety of settings, such as:

- Storefronts/kiosks: Mount flat panel monitors for easy viewing and add touchscreens for interactivity.
- Trade shows: Securely mount LCD TVs or monitors in common areas and quickly remove them for safekeeping at the end of the day.
- Front office environments: Minimize desk space requirements with wall or swing-arm mounting of monitors in reception areas.
- Medical/institutional settings: Securely mount monitors in nursing stations and public areas.
- Conference rooms: Mount projectors (with 100 mm VESA-compliant pre-drilled holes) on ceilings, and monitors on walls or tables.

Notes:	1. No HP monitors allow positioning of a thin client product between a monitor screen and its stand. 2. The Quick Release device is not to be used between a monitor screen and its stand unless provided that way from the factory. 3. Under no circumstances is the Quick Release device intended to be used in an orientation where the Release/Lock lever is oriented downward.
Supported weight capacity	The HP Quick Release has been designed to support a maximum of up to 24 lbs (10.88 kg) depending upon the mounting configuration used. Please note this is a total weight limit for all devices mounted, i.e. the combined weight of the monitor and a second device such as an HP thin client product cannot exceed 24 pounds. Because mounting surfaces vary widely and the final mounting method and configuration may vary, mounting fasteners are not supplied (other than the VESA-compliant screws). HP recommends that you consult with a qualified engineering, architectural or construction professional to determine the appropriate type and quantity of mounting fasteners required for your application and to ensure that your mounting solution is properly installed to support applied loads.
