

## DS-WSPLI-T8 Workstation

### Introduction

Embedded with the Linux operating system, the DS-WSPLI-T8 Series Workstation provides well performance in CPU processing, decoding, and storage capability. It allows the integration of the Hikvision hardware and the third-party VMS software to maintain a flexible one-stop solution.

The DS-WSPLI-T8 station can be applied to the middle-scale chain management with convenient remote centralized storage.

### Key Feature

- High stability and reliability
- Compact and flexible structure design
- Linux operating system
- Various CPU / memory options selectable
- Allow installing or integrating with the third-party VMS software
- Hardware RAID configurable
- mSATA SSD available for operating system and software installation
- 2 HDMI outputs at up to 4K resolution

### Typical Application
