Hardware, Cable Manager, 19" Ring

Features and benefits

- Secures and retains patch cables
- Maintains proper bend radius
- Cable transition from horizontal to vertical channels
- Standard size for mounting in 19" racks and cabinets
- Modern design and simplicity of mounting

Description

The 19" 1U/2U ring cable managers are constructed using steel and finished in powder coated black, with 50mm deep steel rings. These ring guides allow patch cords to exit at any point and provide a pleasing look to the cabinet.

The cable managers are designed for use in 19" rack environments for managing patch cords that are connected between patch panels and the network switch. It is recommended that one cable manager is mounted between every patch panels or a network switch. All cable managers are design to meet EIA-310-E standard and hence all compatible with any 19" racks or cabinets.

Opterna cable management products deliver excellent cable management support when used in conjunction with other Opterna 19" products.
Applications

- Standard 19" rack compatible
- Data Centers & MDF/IDF racks and cabinets
- Used between patch panel and network switch in racks and cabinets

Standards

- IEC 60297-3
- EIA-310-E
- DIN 41494-1, 7
