HP 32 Display

Larger than life

Home entertainment reaches new heights on a spacious 80 cm (31.5") diagonal display. Maximize immersion while watching movies, and multitask with multiple windows on a full-sized screen. With its vibrant visuals and versatile connectivity options, everything on screen comes to life in dazzling clarity.

More screen. More to see.
Bolster your entertainment experience with an expansive 80 cm (31.5") diagonal FHD[1] resolution display that delivers 70% more screen than a 24" monitor. Plus the 178 degree viewing angle gives you sharp picture from all sides.

Crisp. Clear. Colorful.
Watch your media come to life in rich, vibrant color with IPS technology. From vacation photos, to movies and games—everything is portrayed in striking detail with 99% sRGB accuracy.[2]

Convenient connectivity
Multiple ports let you connect to your laptop or desktop with ease. This sleek design conveniently houses an HDMI and VGA port, allowing for fast and simple setup.

[1] Full high-definition (FHD) content required to view FHD images.
[2] All performance specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary either higher or lower.

HP 32 Display

Featuring

Full HD IPS display / 1080p display
Be prepared for brilliant visuals and crisp images with the unforgettable quality of this stunning FHD display.[1]

Step up to the best
IPS technology brings you clear views from almost any angle. Every seat is the best seat in the house.

VGA/HDMI
Ready to connect with both VGA and HDMI ports for FHD quality.

Share the panoramic view
Vibrant detail from practically any position with consistent color and image clarity maintained across an ultra-wide 178° horizontal and vertical viewing angles.

Off the desk and on the wall
The display is equipped with standard VESA mounting for showcasing on a wall or swivel arm. (arm or wall assembly sold separately)

Anti-glare panel
Enjoy the sun and your favorite content with this anti-glare panel. Non-reflective and low gloss, means you'll get less glare while you're outside.

Seamless visuals
Videos and games come to life with less stutter or blur for more realistic play with smooth 5 millisecond gray-to-gray response time.
